

# HERE'S HOW YOU CAN HELP!

## What is an LWRP?

An LWRP is a local land and water use plan for a community's coastal area which incorporates a Harbor Management Plan.

LWRPs utilize input from the public to create a shared vision for the waterfront area.

There will be other opportunities to get involved during the next year:

- Online Survey
- Poster Installation at Village Hall
- Public Workshops (Late fall 2019, Spring 2020 and Summer 2020 anticipated)

Provide general comments at [SagharborLWRPUpdate@gmail.com](mailto:SagharborLWRPUpdate@gmail.com)

Your input will be needed to identify local waterfront issues and opportunities within the Village and create a vision for the waterfront area.

Your knowledge and experiences will help us develop goals and objectives for the LWRP Update, as well as to develop and prioritize local improvement projects.
